SEATFROG

SENIOR iOS DEVELOPER

Freelancer

Seatfrog is a brand new startup in the travel industry. We're a close-knit team who are passionate about building beautiful products with world-class UX, design and robust technology and we're supported by some of the travel industry's biggest brains.

We're looking for an experienced Senior iOS developer to work on a 8 week contract with a potential to go permanent.

What you'll do

- Work on a best-in-class iOS app that pays close attention to detail where user interface and user experience are concerned.
- Interact with our REST API to connect the app with users on our entire network.
- Work proactively to suggest improvements and get improvements
- Work in sprints to meet deadlines.

Requirements / skills

- You have commercial experience building iOS apps and you can provide samples of your work that demonstrate an advanced understanding of the iOS SDK.
- You have strong skills in software architecture, you're familiar with design patterns and you intuitively know when and where to use them.
- You strive for elegant solutions to problems but you know when the job is done and it's time to move on to the next task.
