DATA SCIENTIST

SYDNEY - FULL TIME / SALARY + EQUITY

Have you ever tried to upgrade, but found the experience elusive and? We couldn't agree more. Which is exactly why Seatfrog is making the world of upgrading an amazing experience and a joy to use for travellers all over the globe. We've just launched with Virgin Trains in the UK and we have even more exciting announcements in the pipeline for early 2018.

Seatfrog is an exciting place to work. We're backed and advised by some of the smartest and brightest minds in travel from all over the globe. We've assembled a team of leaders who are some of the world's best strategists, designers, technologists and data scientists, and we all love coming to work because we only hire nice, smart and energetic people.

At Seatfrog we make sure you have an environment where you can do amazing work and pursue your dreams. This is a culture with substance where collaboration, growth, beautiful design, outstanding results and success are massively encouraged.

So, this amazing job we've been talking about...
We are currently looking for a full time Data Scientist to assist with data preparation, database development and to input into our machine learning. As a function of this role you will also be responsible for managing and building a data pipeline to support the company in insights, analysis, and data integrity to help us better understand the behaviours, demographics and values of individuals that engage with our platform.

What we expect from you
- A desire to grow and be a leader in the business
- Be passionate and work proactively to suggest improvements
- Move quickly, work smart and collaborate on finding the best ideas
- Work in sprints to meet deadlines
- A love of travelling is a big, big bonus

Your skills and experience
As a solutions-focused and adaptive team player, you'll have:
- Bachelor's or Master's in Computer Science
- Experience with database design, programming in Python and SQL (ideally Postgre)
- You have worked with AWS or Ubuntu CLI and have previous cloud experience.
- An understanding of the following will help you add a little bit extra to the team:
- JavaScript or BI
- Auction Theory or Game Theory.
- Logistic regression, Random forests or Agent based modelling
- Experience/Enthusiasm to work in for a fast-paced startup with an attitude for shipping quality
- apps.

If this sounds like your perfect gig, email us today at careers@seatfrog.com.

In your email, we'd love to hear the top line about you, the achievements that you're proud of and examples of your work. But most importantly, why do you want to work with us at Seatfrog?

Amazing careers with the Seatfrog team.
